# SUPERHERO COSTUME

TRANSFORM YOUR DOG INTO  
A SUPER BUDDY!

## YOU WILL NEED

Felt Cape Fabric (Up to one yard)  
Felt Symbol Fabric (Multiple  
colors like red, blue, yellow)

Printer  
Scissors  
Non-toxic Glue  
Velcro

## DIRECTIONS

1. Download and print the templates on the following pages.
2. If you have a very small pet, you can use the attached cape template, align the top and bottom pieces together and cut from a single folded piece of felt. If you have a medium or large pet, you will need to adjust the template to fit your pet.

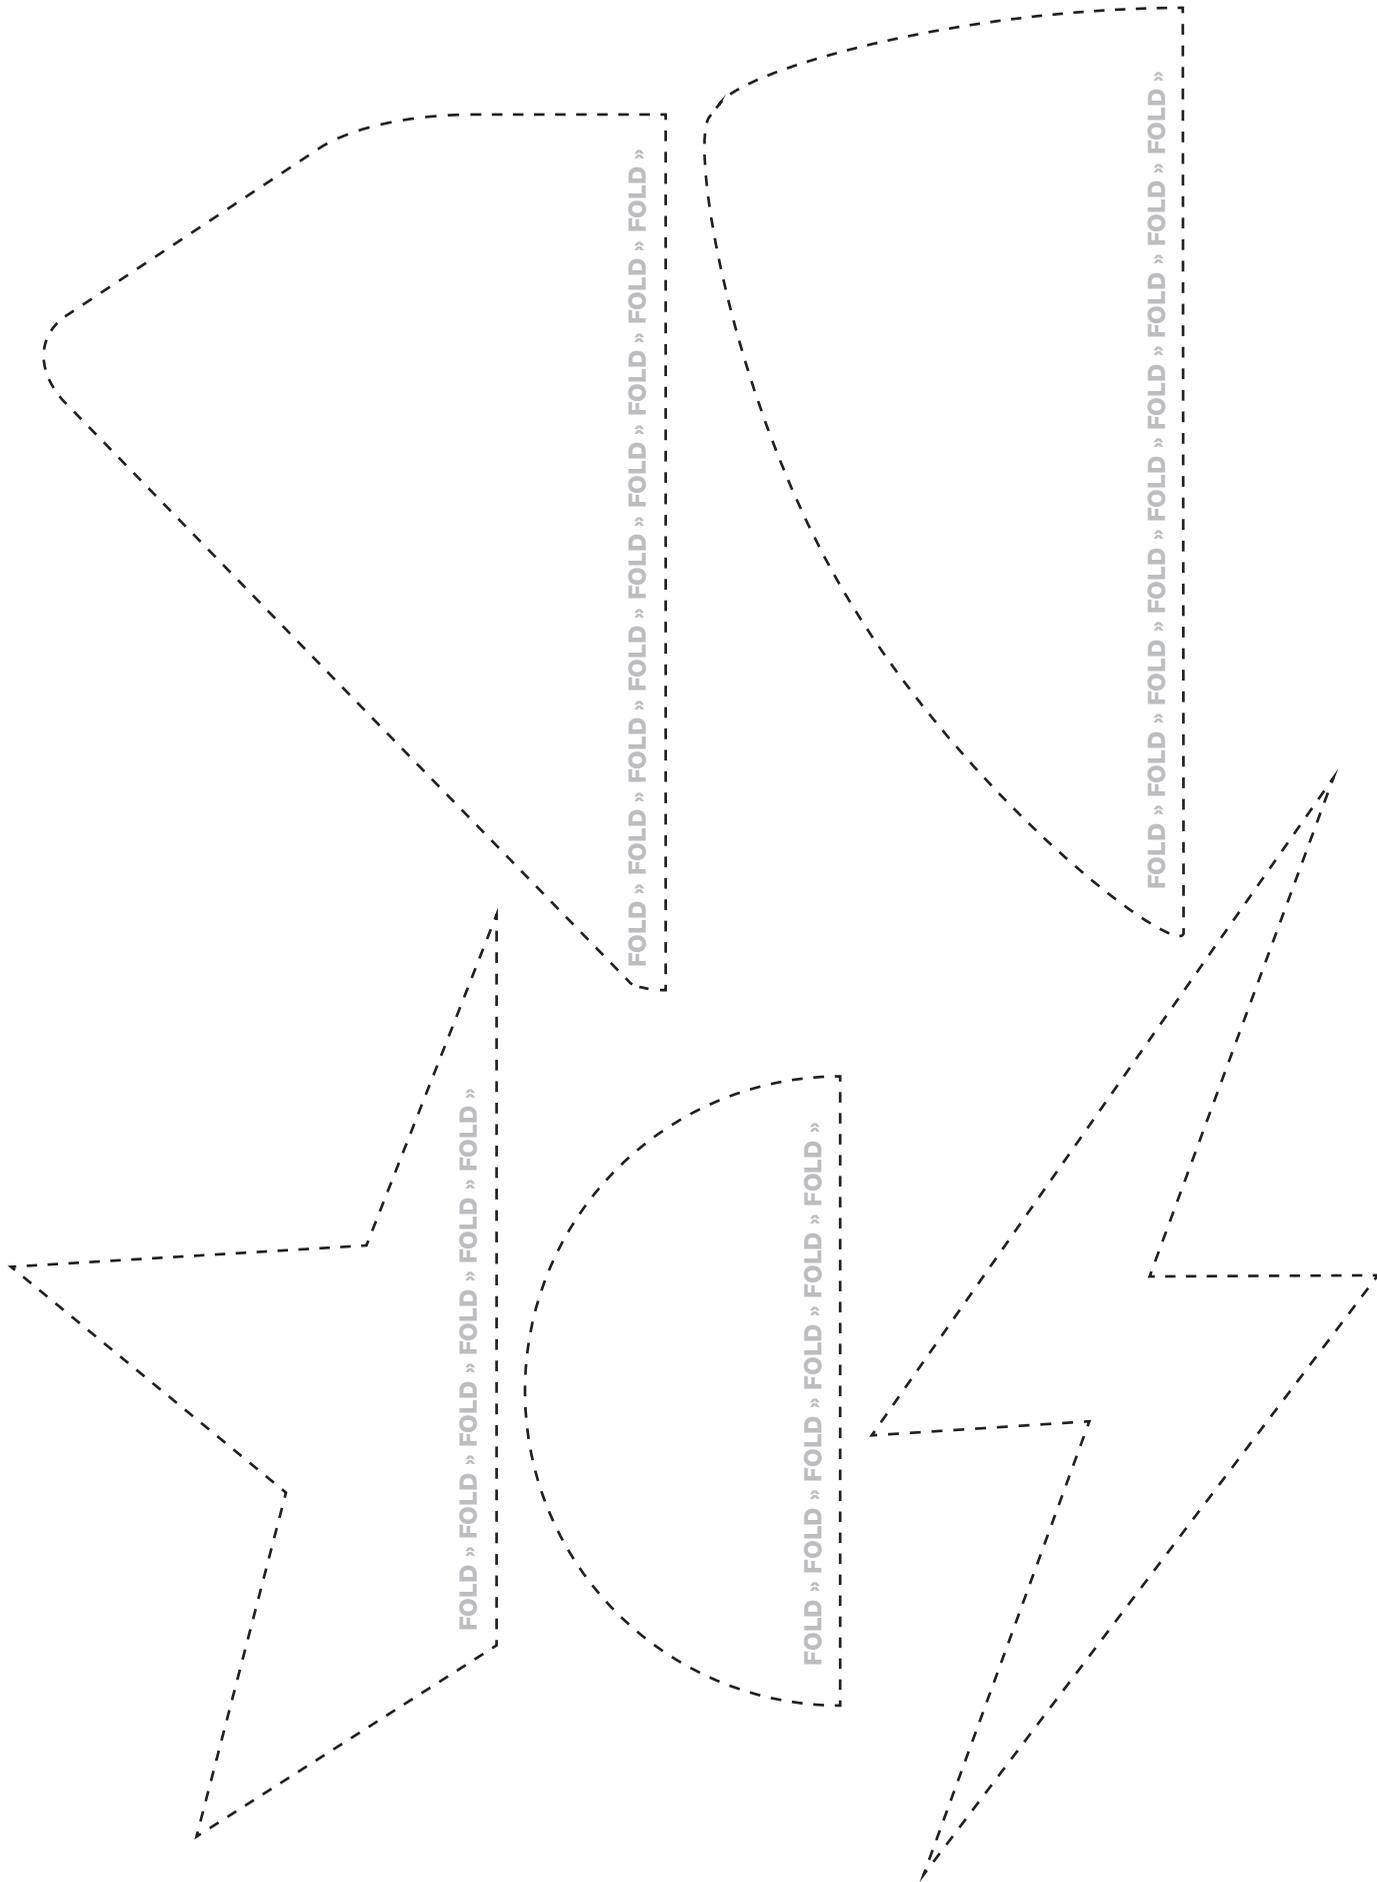

*Fitting your pet: Measure your pet from it's neck to it's tail and cut a piece of felt according to that length, cut the width the same size creating a square. Use the attached template as a reference to cut your cape shape. Fold your felt in half and trace the template shape onto the felt. Cut through both sides, so you will wind up with a whole cape.*

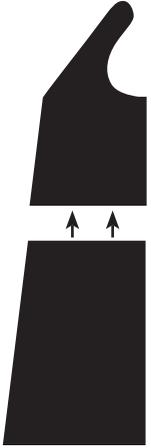

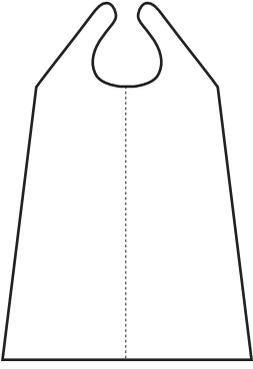

3. Cut a piece of velcro about 2 inches long. Attach one side to the top of the right side and attach the other side to the bottom of the left side.  
*If you have a larger pet, make the velcro strip longer.*
4. Choose the superhero symbols you prefer and cut them out of varying colored felts.
5. Fold a piece of felt in half, then trace the shield template on the felt, cut through both sides of the folded fabric, so you'll wind up with a whole symbol.  
*If you have a larger pet, you may want to make the shields and symbols a little larger in order to stand out more.*
6. Lay the cape flat on a tabletop and layer the symbols on top, get creative with this, once you are satisfied with your design, glue all the pieces together and let dry.

ON BLU-RAY™ COMBO PACK  
**AUGUST 27**

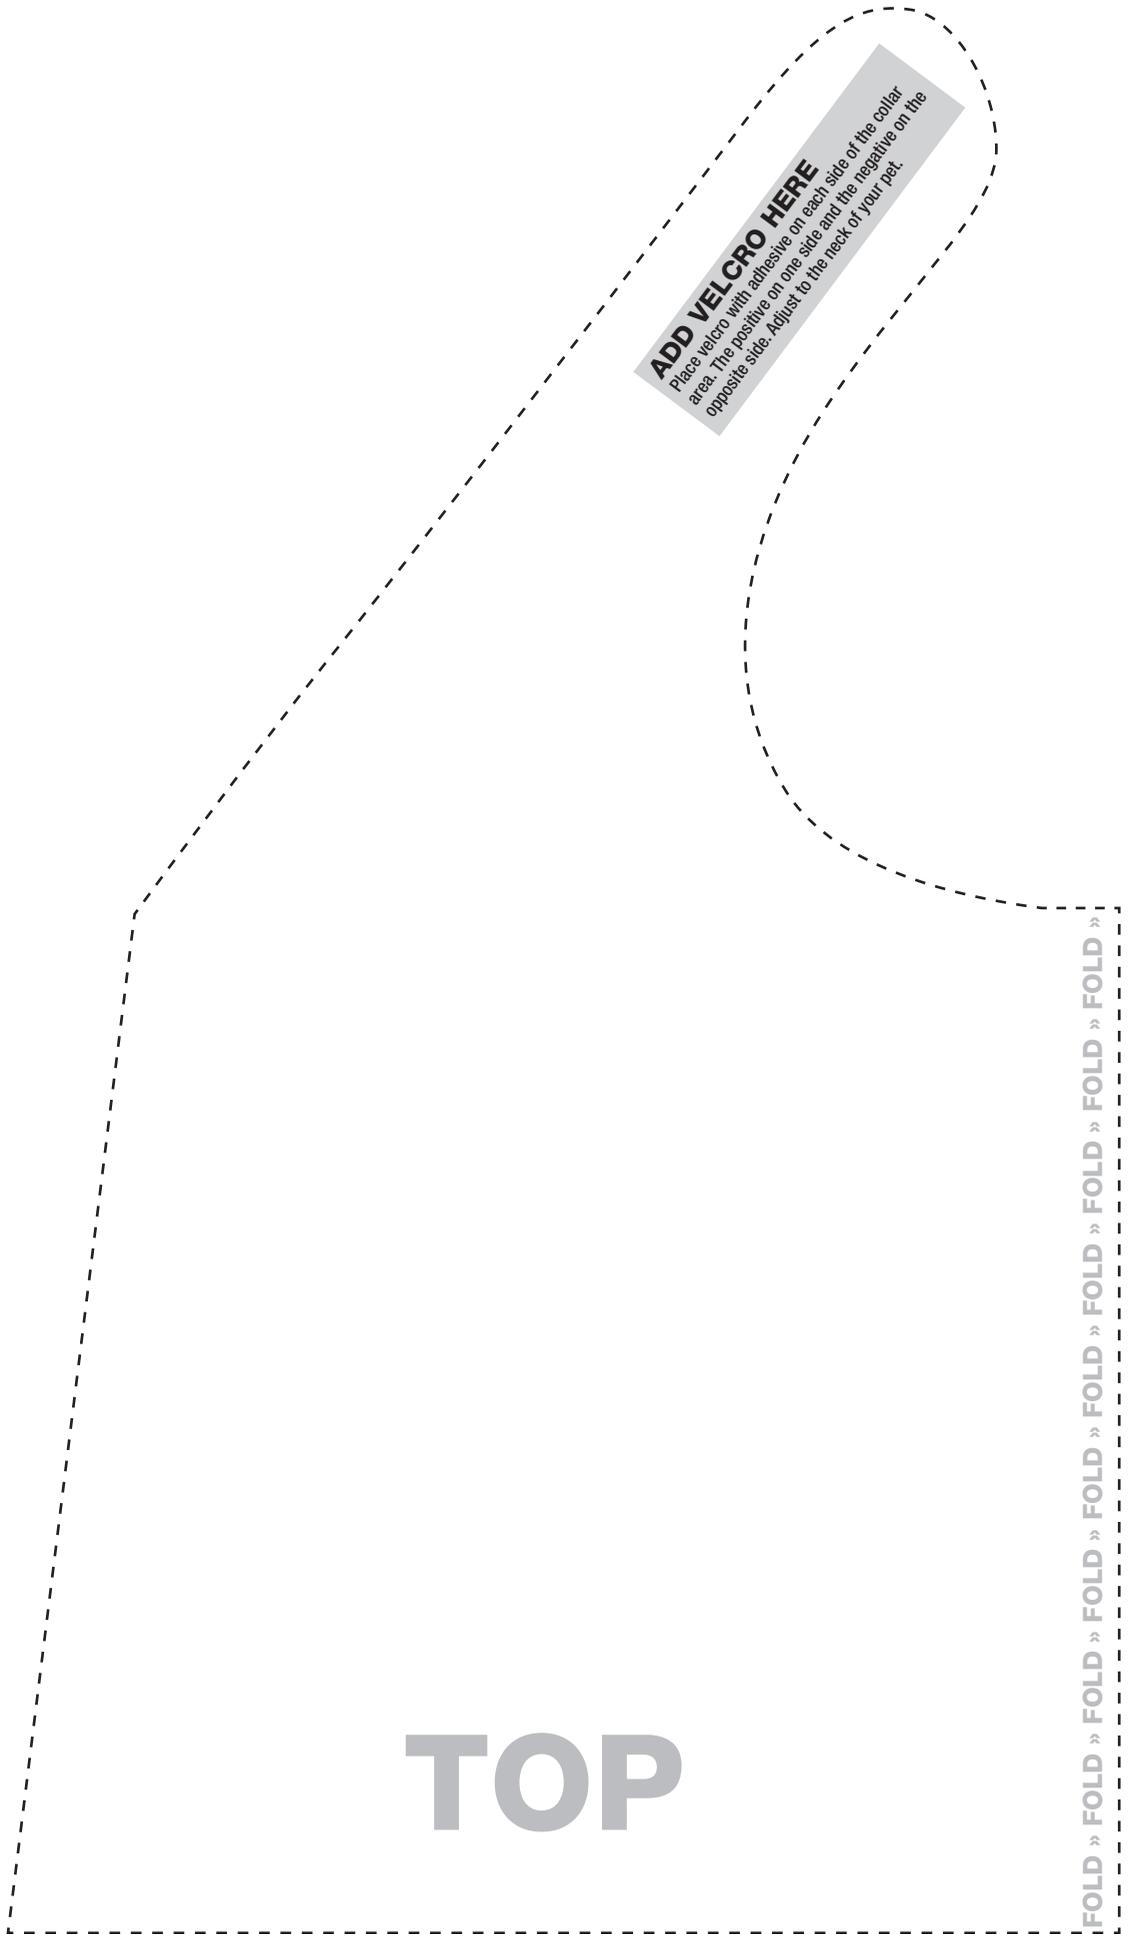

**ADD VELCRO HERE**

Place velcro with adhesive on each side of the collar area. The positive on one side and the negative on the opposite side. Adjust to the neck of your pet.
