Hey Kids,  
Make your mom this cool  
Pop-Up Card!

It's fun and easy.

# Instructions

1. Print out these pages and carefully cut out each half of the leaf shapes above.
2. Fold the other page into four parts.

# Instructions

3. Sign your name, then fold the leaf shapes down the middle and at the base so they have "feet".

4. Match up the slots you cut and fit the two halves together. Leaf at the top with supports underneath. (Do not use glue yet:)

5. NOW you can glue. Stick the two supports to the card exactly as marked. Only use a few drops of glue. DON'T put any glue on the leaf - just the supports.

6. Congratulations!  
Let the glue dry and you're done!
