Fairy House Ornament

Construct a cute Fairy House to display in a tree or on a special shelf in your home.

Things you need: Scissors, glue, and yarn.
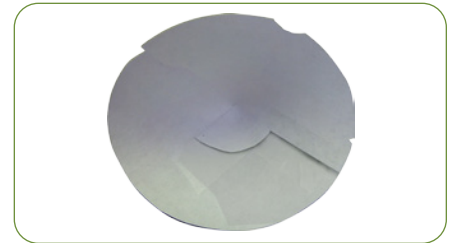

Instructions

1. Start by cutting along the solid black lines.

2. Glue the two ends of the house together by matching up the textures (as shown below).

3. Create a cone shape to make the roof and glue along the edge as shown below.

4. Fold the tabs in and apply glue on the tabs as shown below.
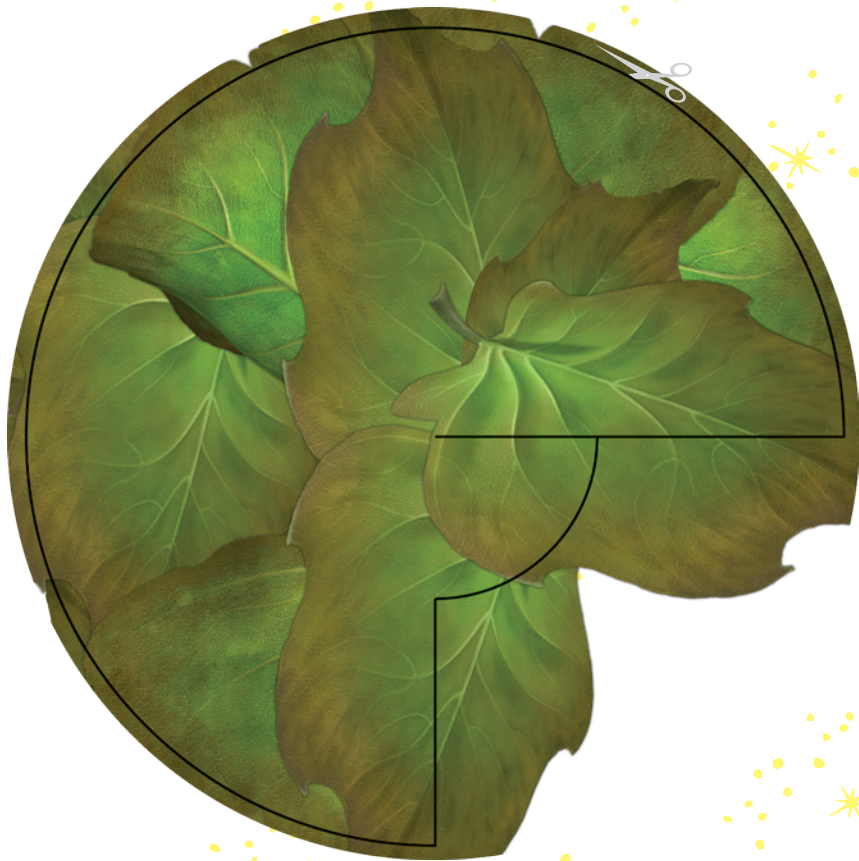

5. Glue the roof to the green tabs.

6. Optional: Carefully punch a hole through the roof and pull a yarn through the hole. Then tie a knot at the bottom to secure the yarn.

Kids, please ask a grown-up for help with your craft.
