Step 4: Press the wide end of your paper strip onto the straw with the colorful side facing outward, then wrap the paper around the straw while keeping the paper tight and the edges even. The pointed tip of the paper should end up in the middle of the bead when you've reached the end.

Step 5: When you've finished wrapping the paper, use a short piece of tape to secure the pointed tip. Slide your finished paper bead off of the straw.

Step 6: Repeat steps 1 through 5 so that you can string enough beads to make a bracelet, necklace, or anklet.

Step 7: Cut a piece of thread, yarn, ribbon, or string the appropriate length. A necklace is about 24 inches, a bracelet 9 inches, and an anklet 13 inches.

Step 8: Wrap a bit of tape around the edge of your thread or thread a needle with your parents' help, then pass all of the paper beads over the tape or needle towards the center of the string.

Step 9: Once all the paper beads are on the string, tie the ends together into a knot or a bow to fasten your new piece of Pixie jewelry.
