

## Neverberry Punch

### Neverberry Punch

A true neverberry (grown only in Pixie Hollow) has the perfect tart to sweet ratio. Here's how to make something just like it on the mainland!

Makes 5 servings

**MAINLAND INGREDIENTS**  
1/2 cup sugar  
1 cup of fresh lemon juice  
(4 large lemons)  
4 cups water  
4 large strawberries  
(or 6 small ones)  
A handful of raspberries  
A splash of cranberry juice  
Ice

- 1. JUICE AND STIR**  
Squeeze the juice of four large lemons into a cup or bowl.  
Pour juice over a mesh strainer into a pitcher to remove seeds and pulp.  
Add water and sugar to the pitcher and mix well.
- 2. SLICE AND SPLASH**  
Cut the tops off the strawberries and slice to create rings.  
Add strawberry slices and whole raspberries to the pitcher.  
Pour in a splash of cranberry juice, stir and chill for 20 minutes.
- 3. FAIRY TASTING**  
Only residents of Pixie Hollow know the true taste of a neverberry.  
Have your Fairy taste the punch and determine whether it is sweet and tart enough.  
To make the punch more tart, add extra lemon.  
For a sweeter mix, add more sugar. Once you have your Fairy's approval, serve the punch over ice.
